Spine (ISSN 0362-2436) is published monthly except January/February and July/August, which are combined, by Harper & Row, Publishers, Inc., East Washington Square, Philadelphia, PA 19105. Printed in the U.S.A. © Copyright 1985 by Harper & Row, Publishers, Inc. Second class postage paid at Hagerstown, MD, and at national mailing offices

Subscription information, orders or change of address: (except Japan, India, Nepal, Bangladesh, and Sri Lanka) 2350 Virginia Avenue, Hagerstown, MD 21740, or call 1-800-638-3030; in Maryland, call collect 301 824-7300. In Japan, contact Woodbell Scope Incorporated, Mansui Bldg. 9-18, Kanda Surugadai 2-Chome, Chiyoda-Ku, Tokyo 101, Japan. In India, Nepal, Bangladesh, and Sri Lanka contact Universal Subscription Agency Pvt Ltd., 101-102 Community Center (F.F.) Saket, New Delhi-110017, India

Annual subscription rates: U.S. $80.00 individual, $112.00 institution: resident/student $54.00 U.S. only $67.00 Canada only, all other countries except Japan, India, Nepal, Bangladesh, and Sri Lanka, $93.00 individual, $125.00 institution. Single copies $13.00. Rates for air mail delivery available upon request. Copies will be replaced without charge if the publisher receives a request within 60 days of the mailing date in the U.S. or within 5 months in all other countries

POSTMASTER: Send address changes to Spine, 2350 Virginia Avenue, Hagerstown, MD 21740.

GENERAL INFORMATION

SPINE, issued monthly except January/ February and July/ August, which are combined, in one indexed volume per year, is published by the Medical Journals Division, HARPER & ROW, PUBLISHERS, East Washington Square, Philadelphia, PA 19105. Subscriptions should be addressed to the Fulfillment Department, Harper & Row, Publishers, Inc., 2350 Virginia Avenue, Hagerstown, MD 21740, or call 1-800-638-3030; in Maryland, call collect 301-824-7300, payable in advance. Rates are $80.00 per year in the United States; $93.00 per year elsewhere, except Japan, India, Nepal, Bangladesh, and Sri Lanka. Special rates: Institutions: $112.00 per year in the United States; $125.00 per year elsewhere, except Japan, India, Nepal, Bangladesh, and Sri Lanka. Residents/students: $54.00 per year in the United States only, $67.00 per year in Canada only. Subscriptions begin with the first issue of the current volume, when available. Copies will not be replaced without charge unless a written request is received within 60 days of the mailing in the United States or within 90 days in all other countries. Single copies and back issues, when available, are supplied at $13.00 each. Reprints, except special orders of 100 or more, are available only from authors. Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Harper & Row, Publishers, Inc., for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $00.80 per copy plus $00.05 per page is paid directly to CCC, 21 Congress St., Salem, MA 01970. 0362-2436/85 $00.80 + $00.05. Business communications should be addressed to the publisher. Advertising inquiries should be addressed to Pharmaceutical Media, Inc., 130 Madison Avenue, New York, NY 10016.

STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION
((Required by 39 U.S.C. 3685)

Date of Filing—October 1, 1985

Title of Publication—Spine

Publication No. 307760

Frequency of Issue—Ten Issues Per Year: Jan/Feb, March, April, May, June, July/Aug, Sept, Oct, Nov, Dec

Subscription Price—$80.00

Location of Known Office of Publication—2350 Virginia Avenue, Hagerstown, MD 21740

Location of the Headquarters of General Business Offices of the Publishers—East Washington Square, Philadelphia, PA 19105

Publisher—Harper & Row, Publishers, Inc., East Washington Square, Philadelphia, PA 19105

Editor—Henry LaRocca, MD, 4938 Prytania Street, New Orleans, LA 70115

Managing Editor—Deborah G. Huey, East Washington Square, Philadelphia, PA 19105

Owner—Harper & Row, Publishers, Inc., 10 East 53rd Street, New York, NY 10022

Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1% or More of Total Amount of Bonds, Mortgages or Other Securities

SUBJECTS AND TITLES

A

Abdominal musculature, Gracovetsky S, Farfan H, Helleur C, 317
ACTH injections, and mobility in ankylosing spondylitis, 472
Acute traumatic intraosseous disc herniation, McCall IW, Park WM, O'Brien JP, Seal V, 134
Adolescence, and anthropometric data for normal and scoliotic girls, 123, 425
Aging, and spinal stenosis diagnosis with myelography, 171
Amyloidoma of spine, primary, 303
Analgesia. *See* Pain, relief of
Analysis of failed Harrington rods, Cook SD, Barrack RL, Georgette FS, Whitecloud TS III, Burke SW, Skinner HB, Renz EA, 313
Aneurysmal bone cyst of the spine: A case report, Schaffer L, Kranzler LI, Siqueira EB, 390
Angina, cervical, 699
Ankylosis, spontaneous, atlantoaxial, in psoriatic arthritis, 102
Anthropometric data relating to normal and scoliotic Scandinavian girls, Normelli H, Sevastik J, Ljung G, Aaro S, Jönsson-Söderström A-M, 123
Anthropometric measurements
  in males, related to back pain, 644
  in normal and scoliotic girls, 123, 425
Anxiety
  in back pain, 440
  and pain in surgical patients, 649
Arteriography, coronary, in cervical angina, 699
Anthritis
  psoriatic, spontaneous atlantoaxial fusion in, 102
  rheumatoid, atlantoaxial subluxation in, 597
Arthrodesis. *See* Fusion, spinal
Arthrogryposis, spinal deformities in, 609
Aspergillosis, osteomyelitis of thoracic spine in, 848
Aspergillus fumigatus osteomyelitis of the thoracic spine treated by excision and interbody fusion, Nasca RJ, McElvein RB, 848
Atlantoaxial conditions. *See* Cervical spine
Atlantoaxial rotatory fixation: Radiographic study of its mechanism, Ono K, Yonenobu K, Fuji T, Okada K, 602

B

Back pain
  and anthropometric characteristics in males, 644
  anxiety affecting, 440
  and assessment of spine function after industrial injury, 482
  baclofen in, 345
  and bone mineral content in lumbar spine, 158
  and effects of sustained lumbar traction, 146
  fads and fallacies in *(Letters),* 293
  and impairment ratings by surgeons, 773
  lifting modes affecting, 922
  lumbar lordosis in, 154
  measurements of lumbar movements in, 150
  in metastatic carcinoma of spine, 19
    palliation with reconstructive surgery, 21
  AND MMPI findings related to fusion results, 933
  mobilization and manipulation in, 833
  and nociceptors in ligaments of lumbar spine, 156
  in paraspinal compartment syndrome, 816
  physiotherapy in, 571
  postoperative persistence of, radiographic evaluation in, 652
  and quantification of lumbar function, 765
  and radiographic measurements of lumbar spinal canal size, 461
  and spinal x-ray findings after age 60, 445
  torso rotation testing in, 913
Baclofen for the treatment of acute low-back syndrome: A double-blind comparison with placebo, Dapas F, Hartman SF, Martinez L, Northrup BE, Nussdorf RT, Silberman HM, Gross H, 345
Balloon disc of lumbar spine, 908
Becker muscular dystrophy, spinal deformities in, 614
Biomechanical analysis of spinal instrumentation systems in thoracolumbar fractures: Comparison of traditional Harrington distraction instrumentation with segmental spinal instrumentation, McAfee PC, Werner FW, Glisson RR, 204
Biomechanical definitions of spinal instability, Pope MH, Panjabi M, 255
Biomechanical study of cervical spine stabilization with

methylmethacrylate, Panjabi MM, Goel VK, Clark CR, Keggi KJ, Southwick WO, 198
Biomechanical study of thoracolumbar spinal fractures with bone in the canal: Part I. The effect of laminectomy, Tencer AF, Allen BL Jr, Ferguson RL, 580
Biochemical study of thoracolumbar spinal fractures with bone in the canal: Part II. The effect of flexion angulation, distraction and shortening of the motion segment, Tencer AF, Ferguson RL, Allen BL Jr, 586
Biomechanical study of thoracolumbar spinal fractures with bone in the canal: Part III. Mechanical properties of the dura and its tethering ligaments, Tencer AF, Allen BL Jr, Ferguson RL, 741
Biomechanics. *See* Loading; Movements
Biopsy, trephine, of thoracic spine, 737
Bone
aneurysmal cyst in spine, 390
grafts of
autografts for vertebral body replacement, 748
for cervical spine stabilization, 32
and segmental wire fixation for pars defect in spondylolysis, 673
vascularized fibula transfer in kyphosis, 891
intraosseous disc herniation in acute trauma, 134
intraosseous pressures in cauda equina claudication, 64
rib length and weight in scoliosis, 590
skull thickness affecting halo pin placement, 696
trephine biopsy of thoracic spine, 737
Bone mineral content of the lumbar spine in patients with chronic low-back pain, Hansson T, Sandström J, Roos B, Jonson R, Andersson GBJ, 158
Boston brace, modified, in spondylolysis and spondylolisthesis, 938
Braces
in arthrogryposis, 609
modified Boston brace in spondylolysis and spondylolisthesis, 938
in muscular dystrophy, 614
in scoliosis *(Letters),* 401
long-term results with Milwaukee brace, 127
in thoracolumbar burst fractures, 631

Paraplegia following chemonucleolysis: A case report and discussion of neurotoxicity, Dyck P, 359
Paravertebral marcaine in postoperative lumbar laminectomy pain relief, Rechtine GR, 99
Pars interarticularis fusion of multiple levels of lumbar spondylolysis: A case report, Eingorn D, Pizzutillo PD, 250
Pathomorphology of spinal stenosis as seen on CT scans of the lumbar spine, Schonstrom NSR, Bolender N-F, Spengler DM, 806
Pedicle fat grafts for the prevention of scar in low-back surgery: A preliminary report on the first 92 cases, Gill GG, Scheck M, Kelley ET, Rodrigo JJ, 662
Pelvis
  movements in osteoarthrosis of hip joint, 467
  postural relations to lumbar spine, 83
Percutaneous trephine bone biopsy of the thoracic spine, Mick CA, Zinreich J, 737
Physical signs of instability, Paris SV, 277
Physiotherapy in back pain, 571
Poroelastic dynamic structural models of rhesus spinal motion segments, Simon BR, Wu JSS, Carlton MW, Kazarian LE, France EP, Evans JH, Zienkiewicz OC, 494
Posterior surface of the lumbar vertebral bodies, Larsen JL, 50
Posterior surface of the lumbar vertebral bodies. Part II. An anatomic investigation concerning the curvatures in the horizontal plane, Larsen JL, 901
Posterior surgical stabilization for atlantoaxial subluxation in rheumatoid arthritis, Thompson RC Jr, Meyer TJ, 597
Posture
  and back pain complaints, 644
  in camptocormia, 325
  control in scoliosis, 1
  and etiology of back and neck pain, 872
  normal, standards for, 83
  study of positions for work with poor leg space, 433
Pregnancy, after scoliosis treatment with Milwaukee brace, 127
Presidential symposium on instability of the lumbar spine: Introduction, Kirkaldy-Willis WH, 254
Primary amyloidoma of the spine: A case report and review of the literature, Leeson MC, Rechtine GR, Makley JT, Carter JR, 303
Profile of metastatic carcinoma of the spine, Schaberg J, Gainor BJ, 19, *(Letters)* 689
Progressive scoliosis following chest wall resection in children, DeRosa GP, 618
Prolapse of disc, gradual, 524
Propylthiouracil, and spinal osteomyelitis, 104
Prospective study of lumbar spinal movements before and after discectomy using biplanar radiography: Correlation of clinical and radiographic findings, Tibrewal SB, Pearcy MJ, Portek I, Spivey J, 455
Pseudarthrosis
  after lateral mass fusion, 828
  and stereophotogrammetry of lumbar spine, 368
Pseudoangina, in cervical spine disorders, 699
Psoriatic arthritis, spontaneous atlantoaxial fusion in, 102
Psychologic aspects
  of back pain, 440
  of camptocormia, 325
  of lumbosacral fusion results, 933

Q

Quantification of lumbar function. Part I. Isometric and multispeed isokinetic trunk strength measures in sagittal and axial planes in normal subjects, Smith SS, Mayer TG, Gatchel RJ, Becker TJ, 757
Quantification of lumbar function. Part II. Sagittal plane trunk strength in chronic low-back pain patients, Mayer TF, Smith SS, Keeley J, Mooney V, 765
Quentification of lumbar function. Part III. Preliminary data on isokinetic torso rotation testing with myoelectric spectral analysis in normal and low-back pain subjects, Mayer TG, Smith SS, Kondraske G, Gatchel RJ, Carmichael TW, Mooney V, 913
Quantification of lumbar function. Part IV. Isometric and isokinetic lifting simulation in normal subjects and low-back dysfunction patients, Kishino N, Mayer TG, Gatchel RJ, Parrish MM, Anderson C, Gustin L, Mooney V, 922
Quantitative assessment of the fifth lumbar spinal canal by computed tomography in symptomatic L4-L5 disc disease, Kornberg M, Rechtine GR, 328

Radiographic evaluation of the symptomatic postoperative lumbar spine patient, Byrd SE, Cohn ML, Biggers SL, Huntington CT, Locke GE, Charles MF, 652
Radiographic measurements of lumbar spinal canal size and their relation to back mobility, Vanharanta H, Heliövaara M, Troup JDG, 461
Radiographic measurements of the lumbar spine: A clinical and experimental study in man, Saraste H, Broström L-Å, Aparisi T, Axdorph G, 236
